ABSTRACT

Don Pepe (DEPE) isn't just another meme coin - it's a movement, a rebellion against the system that's been rigged to keep the rich on top while the working class struggles to survive. With rising taxes and skyrocketing prices draining pockets dry, it's time to flip the script. Don Pepe is here to rally the underdogs, to unite the family, and to take back what's rightfully ours.

Inspired by the legendary Pepe meme, Don Pepe calls on you to join the Cartel. Together, we'll build an empire, crush the competition, and rewrite the rules of the game. This isn't just about survival - it's about thriving, redistributing wealth, and having a damn good time while we're at it.

This whitepaper lays out the vision, the roadmap, and the master plan for DEPE's rise to power. The question is: are you ready to join the family and make history?

DEPE Corp. verify that to the best of their knowledge the information presented in this whitepaper is fair, clear and not misleading and does not omit any details which is likely to have any bearing on the asset. PROJECT DETAILS

PROBLEM STATEMENT

Listen up, paisanos... The streets are bleeding. The working stiff's been squeezed 'til there's nothin' left but dust. Prices keep climbin' like a ladder to nowhere, and the big shots in government? They're crankin' up interest rates like it's the only trick in their book.

We've already survived the 2008 credit massacre, the lockdowns that put half the world on ice, and now they got us fightin' uphill - sky-high rents, grocery bills that'll make you choke, and taxes that bite harder every year. Every time the suits screw up it's the little guy payin' the tab, scrapin' by just to keep the lights on.

But while the old world's burnin', there's a new game in town. The crypto streets are buzzin' especially with these meme coins. We're in a golden age, capisce?

Coins with nothin' but attitude are spinnin' out returns so big they'd make a loan shark blush - some shootin' over 100x from the starting line.

So, here's the choice straight: you gonna stay a cog in their busted machine, or you gonna roll with the DEPE Cartel where we take what's ours, build somethin' powerful and make the whole crew richer together? The door's open... but it won't stay open forever.

SOLUTION

In this game, loyalty ain't just nice to have, it's the whole racket. You wanna make it big in the meme coin streets, you build a crew that's tight, hungry, and ready to move as one. That's why \$DEPE runs a high-stakes, high-reward operation for its token holders.

From the presale to the staking tables, every player's got a shot to climb the ranks - start as an Associate, earn your stripes as a Soldier, rise to Capo and if you've got the brains and the backbone, you'll wear the crown as a Don. Each step up the ladder means fatter staking rewards, and for the Dons? You get the keys to the VIP Syndicate - the inner circle where the most loyal earners swap money-making plays and get first dibs on extra rewards.

This ain't some fly-by-night hustle. The model's built to light a fire under the presale fuelled by sharp digital marketing, solid alliances and branded gear that makes a statement. With Don Pepe at the head of the table, we don't just play the meme coin game - we own the table.

KEY FEATURES

The core utility of \$DEPE is exclusive access to the Cartel community and the VIP Syndicate group as well as eligibility to receive increased staking rewards for higher ranked members of the Cartel.

STAKING & REWARDS

STAKING

\$DEPE introduces a powerful staking mechanism which rewards early adopters and incentivizes long-term holders of the token. Presale participants enjoy an exclusive opportunity to stake their tokens immediately, earning impressive rewards daily during the presale phase. This early advantage allows holders to maximize their earnings potential and unlock the full benefits of being part of the \$DEPE Cartel.

RANKING

\$DEPE offers a unique multi-tier fixed-rate staking system. All users who connect their crypto wallet on the \$DEPE website will automatically be ranked as an Associate. As users purchase and stake \$DEPE tokens, they climb up the ranks to Soldier, Capo and Don. This is a staking rewards system with three fixed APY tiers for Soldier, Capo, and Don ranked users, based on the total amount of tokens staked.

When a user's total staked tokens move into a higher tier, all staked tokens start earning the higher APY from that point forward. Rewards already accrued under the previous tier are locked in and preserved.

The Tier structure is as follows:

RANK	STAKED TOKENS	FIXED APY	REWARDS SPLIT
 Associate	0	0%	-
 Soldier	1 - 99,999	50%	30%
 Capo	100,000 - 499,999	80%	20%
 Don	500,000+	150%	50%

The rewards split determines the maximum deposits for each tier i.e. the maximum total tokens that can be staked across all users in that category to receive the full allocated rewards.

If the maximum deposits for a rank are reached, users cannot earn more rewards in that tier. For instance, if the Soldier category hits its maximum deposit limit, users can no longer earn Soldier rewards. To continue earning, they'd need to stake more tokens to move into the Capo tier and start receiving Capo rewards.

KEY RULES

- APY Based on Total Staked — The tier is determined by the current total staked tokens.
- Full Upgrade on Tier Change — When moving to a higher tier, all staked tokens earn the new tier's APY from that moment forward.
- Rewards Preservation — All rewards earned before the tier change are locked in and remain unaffected.
- Only Staked Tokens Count — Simple "Buy" actions do not qualify for staking rewards until tokens are staked.
- Presale Period — APY remains fixed for each tier until the presale ends, regardless of market conditions.

LOGIC EXAMPLE

Step 1 – First Stake

- User buys and stakes 80,000 tokens.
- Tier: Soldier → 50% APY.
- Earns rewards at 50% until rank changes.

Step 2 – Second Stake

- Later, user buys and stakes 200,000 more tokens.
- Total staked = 280,000 tokens → qualifies for Capo tier.
- All 280,000 tokens now earn 80% APY going forward. All rewards earned under the Soldier rank are locked in.

VIP SYNDICATE

All users who have reach Don status in the rankings will secure an invitation to an VIP Syndicate group. This is an exclusive group where the most loyal of the DEPE Cartel gather together to discuss opportunities for DEPE growth, participate in competitions to earn more rewards and for members to share money-making ideas outside of \$DEPE.

A snapshot of wallet IDs and rankings will be taken at the end of the presale phase to finalize the list of invitees. Further will be announced through our official social media channels closer to the end of the presale phase.

TOKENOMICS

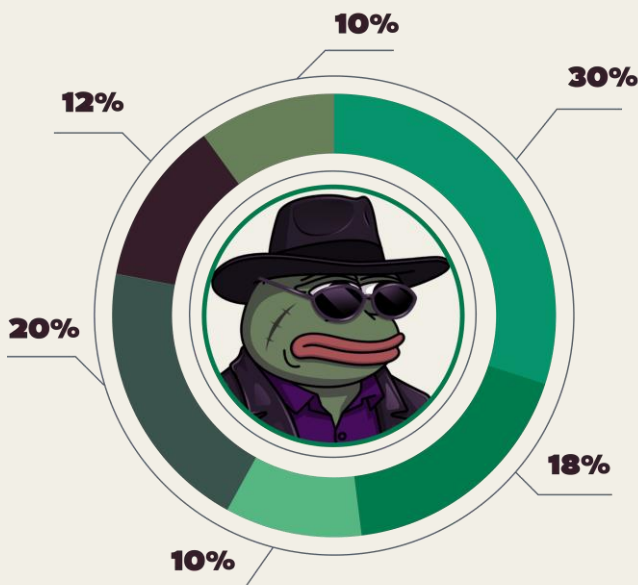

The tokenomics of \$DEPE are meticulously crafted to reward long-term holders and ensure sustainable growth for the community. The allocation strategy is designed to deliver significant benefits to the loyal members of the DEPE Cartel, with dedicated budgets for strategic marketing campaigns, staking rewards, VIP incentives, liquidity to support high-volume trading and a robust development fund.

The journey begins with a public presale of the \$DEPE token at an initial price of \$0.0005, ensuring a fair and transparent process without early seed or private sale rounds. The presale price will incrementally rise across numerous stages, with a total of 48,000,000,000 \$DEPE tokens, representing 30% of the total supply, allocated for this phase. The presale phase will conclude after approximately 30 stages, although it may end earlier depending on demand.

This thoughtfully constructed tokenomics model ensures a strong foundation for \$DEPE's growth, reinforcing the community's success and solidifying its place as a leader in the meme coin space.

TOKEN DISTRIBUTION

The token contract specifies a total fixed supply of 160,000,000,000 \$DEPE tokens. The below table specifies how these tokens will be allocated for the project.
